What happens when a wife wakes up one morning to find that she was not sleeping with her husband all this while, but a stranger whom she had known for more than seven years. An emotional turmoil gets unearthed from the charred ashes of memories when this lady starts digging into the past of her husband's life. The fact that every current action can be correlated to the past buried somewhere in the recesses of one's brain makes this book, which looks like a collection of short stories at the first glance, a finely crafted and woven work of fiction.
