The naked flames danced gracefully around me as the pain flowed, through my veins. The grief and sorrow enveloped me and I descended into it without resistance. Coldplay strummed their beat as their melancholic lyrics rang so very true.

The candles began to die one by one. They had served their purpose for that brief moment in time and finally reached their destiny. The sands of time continued to slip on by. The merlot mixed with my blood and the bitterness ran through me.

Devastated by his beloved's betrayal, Om collapses both physically as well as emotionally and with that, begins his arduous battle for peace. Torn between love and anger, Om inadvertently starts to lose his grip on life as he knew it causing his world to spiral out of control.

Hoping to recover, Om turns to his closest friends, Arun and Mona. However, instead of gaining support, he bears witness to the trials which have besieged their lives.

Like life, the three tales entwine sprinkled with humour, tragedy, perseverance and karmic retribution, and through Om, they bind together into a climactic conclusion.
