"K.B.Trehan, a mining engineer, never quite set out to be a writer. He became a writer by chance" –Suburb Magazine.

Life and tragedy had a lot to do with it. Emerging from the dark mines, resolves to show us the light at the end of the tunnel. His books, whether the sensitive semi-fiction Dancing on the notes of Life or the story of balance and resolution Illusions of Love, have been highly absorbing and a great motivation to live happily and completely.
