Usually ships within 15 days

If you are working in a non-English speaking environment anywhere in the world, and want to work on computers—this book is a must.

This book will aid interested persons to work on computer in any language such as Hindi, Telugu, Kannada, Sanskrit, Persian, Tamil, Greek, Gujarati, Chinese, Urdu, Spanish, French and many more...you can use any of them to surf the Internet, or to send and receive mails and documents using a Desktop, Laptop, or a Palmtop.

Now computers can be made (instructed) to read and write your language. No technical knowledge is required and anybody can work on it.

This book starts with the popular way of using computer, and then goes step-by-step to explain how to write text and data in a chosen language. Explanations have been given in simple manner. There are plenty of illustrations in the form of screenshots. Many concepts have been provided in Hindi. Other Indian languages have also received their due. Chinese, Japanese and Korean have also been touched upon.

Apart from Microsoft Windows, detailed guidelines have also been provided to setup your computer to work in Microsoft Office, Open Office or Linux environments etc.

Following this book you can:

- * Search Internet in your language
- * Sort text and search in your preferred language
- * Write e-mail in any language
- * Hindi e-mail will appear in Hindi

And yes, you do not need any extra software to do all this. Not even pirated ones!

About the Author

Barun Kumar Sahu is an Indian Administrative Service (IAS) officer. He obtained Bachelor of Technology (Honours) degree in Computer Science and Engineering from Indian Institute of Technology (IIT), Kharagpur (West Bengal). He has rich experience in implementation of Indian languages and the IT schemes in the government set-up. It is also his hobby. He actively works for promotion of Indic languages, including tribal and obscure languages.

This is his fourth book. He writes and contributes articles on current affairs and news analysis. He is conversant with several languages including French, Spanish, Bengali and Urdu.

Contents
